

Anchor Hose Service

High Quality Industrial Hydraulic Hose and Couplings

Formed in 1938, the Anchor brand specializes in hydraulic hose and couplings for both the OEM and general market business sectors.

The Anchor product line includes many different configurations of hose and couplings from small diameters up to the large bore hose products.

Setting the Standard for Performance and Reliability

Whatever brand of equipment you own needs to operate at peak performance and at the lowest possible cost. Anchor's broad line of high-low-medium pressure and couplings, combined with the dedicated support of CB HYMAC, help you do that.

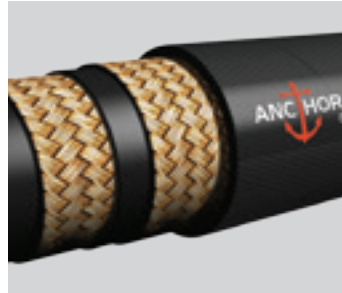

The factory-trained technicians at CB HYMAC utilize Anchor's high-quality assembly equipment to provide you with a robust and precise product. The equipment includes:

- Workshop Crimpers
- Cutting Machines
- Skiving Machines
- Peripheral Equipment

Anchor branded products are manufactured following Caterpillar's high quality standards and product specifications. Each hose is cleaned using projectile cleaning and tested following SAE & EN Standards. Tests include:

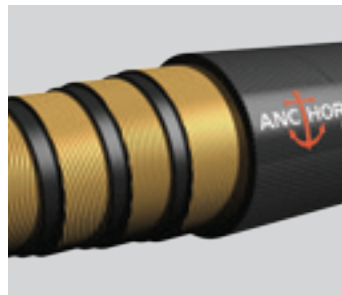

1. Rubber Laboratory
2. Wire Tensile Strength
3. Dimensional
4. Abrasion, Corrosion and Climate
5. Pressure
6. Burst
7. Concentricity
8. Metallurgical
9. Assembly

Hoses

Braided Hose

- Synthetic rubber tube, one or two braids of special high tensile steel wire reinforcements separated by layers of synthetic rubber
- Oil and weather resistant synthetic rubber cover

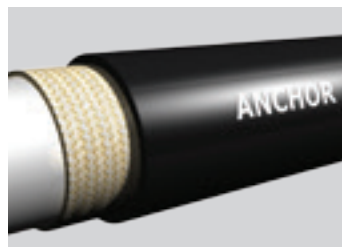

Spiral Hose

- Synthetic rubber tube, four or six spiral plies of high tensile steel wire reinforcements separated by layers of synthetic rubber
- Oil and weather resistant synthetic rubber cover

Textile Braided Hose

- Synthetic rubber tube, one or two textile braid reinforcements, synthetic rubber cover with all layers bonded

Thermoplastic Hose

- Elastomeric core tube, one or two fiber braid reinforcements special polyester cover with all layers bonded

Couplings

Series 3

Let us reduce your costs and increase the efficiency of your entire fleet with Anchor products. **Contact the Anchor hose experts at CB HYMAC to help you find the exact hose and accompanying couplings for your application.**
